

**LET US HELP
IMPROVE THE
INDOOR AIR
QUALITY &
ENERGY
EFFICIENCY OF
YOUR HOME!**

AIR DUCT CLEANING | DRYER VENT CLEANING | FILTER REPLACEMENT | VIDEO INSPECTION

Stop breathing dirty air inside your home!

With us spending more time indoors, the air we breathe is more important than ever. According to the Environmental Protection Agency, levels of air pollution inside our homes can be **two to five times** higher than outdoor levels! The air we breathe inside can contain household dust, mites, mold, mildew, pollen and more.

We show you what you could be breathing

At Josko Services we only use the best equipment and products! We use advanced video inspection equipment to see deep inside your Air Ducts to determine if cleaning is beneficial. Once we have inspected your duct work, we use state of the art brush and vacuum equipment to clean every inch of your system. The Air Duct Cleaning equipment we use works much like your vacuum on your floors. Our brushes scrub your ducts as the powerful vacuum is removing all the harmful contaminants.

Give us a call today and let us help you breathe cleaner inside.

DRYER VENT CLEANING

**IS YOUR DRYER TAKING LONGER TO GET THE
JOB DONE? IT COULD BE TIME FOR A CLEANING.**

Most people think cleaning the dryer's lint screen is enough to keep your dryer running safely and efficiently. The fact is, overtime lint builds up in your dryer and dryer vent which reduces airflow and makes your dryer work harder than it needs to. This can also increase the risk of your dryer overheating causing inefficiencies and in some cases, fires.

**Let us improve the safety and efficiency of your
dryer today!**

**According to the U.S. Fire Administration, the
leading cause of dryer fires in residential homes
(34%) was failure to clean!**

WHEN IS THE LAST TIME YOU REPLACED YOUR AC FILTER?

Regularly replacing your air filter contributes towards keeping your indoor air clean and your heating and cooling system working efficiently. Replacing a dirty, clogged filter with a clean new one can lower your systems energy consumption by **5% to 10%!**

We are here to help make your life easier! Thanks to the Indoor Wellness auto delivery service a new filter will be at your door reminding you its time to replace your dirty old one!
